OBJECTIVE

Motivated 2nd-year B.Tech Computer Science student seeking a software engineering internship to apply skills in Java, Python, and web development. Committed to contributing to real-world projects, learning industry practices, and building a strong foundation as a software developer.

EDUCATION

Vignan Institute of Engineering for Women's <i>Bachelor of Technology – Computer Science and Engineering</i> 2nd Year Currently Pursuing	2024 – 2028 (Expected)
Himashekar Junior College, Anakapalli <i>Intermediate – MPC (Class XI & XII)</i>	Completed 2024
Prasanthi Nikethan High School <i>Secondary School Certificate (SSC) – Class X</i>	Completed 2022

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)

Tools: Git, VS Code

PROJECTS

Lift System Simulation	Java
- Developed a console-based elevator system simulation using core Java and Object-Oriented Programming principles. - Implemented floor request handling, directional movement logic (up/down), and multi-floor status tracking. - Applied OOP concepts including classes, objects, inheritance, and encapsulation to model real-world lift behaviour. - Enhanced understanding of Java control flow, constructors, and class-based design through hands-on implementation.	

ACHIEVEMENTS AND CERTIFICATIONS

- Participated in an inter-college coding contest and earned a certification, demonstrating problem-solving and programming skills.
- Completed self-directed learning in HTML, CSS, and JavaScript to build practical front-end development skills.
- Actively exploring AI tools and emerging technologies to stay updated with industry developments.

LANGUAGES KNOWN

English, Telugu

INTERESTS

Learning AI Tools, Full Stack Web Development, Competitive Programming
